

Dear FCC, I just want to comment on the Powerful and Spiritual work of my local K-LOVE radio station. I live in Northern Illinois and my local K-LOVE station is 94.3. Listening to it has helped me get closer to the LORD, helped me in times of despair and even when I am in the car driving along with family in it. We as a family can listen to K-LOVE without subjecting our children to horrible language, for example HOWARD STERN. He is a terrible person to be listening to and his format never changes, just sex and ripping down the church and GOD. IF I AM NOT MISTAKEN OUR MONEY PRINTED BY THE US GOVERNMENT, SAYS " IN GOD WE TRUST ". Our fore-fathers surely knew what they were doing having that on our money and also could have never built this country with GOD's help. I really do believe that General Washington would have failed and perished if he didn't have GOD behind him.

Now, as for when I driving in the car, being an angry driver no longer is a factor for me because of K-LOVE. People always cutting me off just because I do the speed limit or maybe a few miles over and that never suits them. K-LOVE helps me remember that GOD you and I and we will never have anything to worry about if we just put 100% faith in him.

Well May GOD be with you and keep the FCC in his Graces,

Kevin T. McHone
